

Environment: Windows 10

Browser: Google Chrome

URL:

<https://www.templeandwebster.com.au/1000TC-Cotton-Rich-Sheet-Set-BR1000TCSS-BAMF1877.html>

Pre-condition: Page is available and loaded on the browser; User is logged in

Notes: As instructed, I only included the scenarios for the section in the screenshot. I can also add cases for the pop-ups and redirects if it will be required. I just also listed down up to the test cases level. Test steps, test data and other things can be detailed if required for this test.

- Check that the links are working properly
 - User should be able to click the breadcrumb trail links
